

Taradin

Taradin[®] Granule

Relieves Cough, Sore throat & Hoarseness

pharmacology:

This product is a combination of four Mucilage seeds, the infusion of which is used to treat cough, sore throat and reduce inflammation of the throat and mouth. The mucilaginous compounds in this product help to reduce irritation and inflammation of the throat and mouth mucosa with their protective and softening properties. None of the seeds in this formula are powdered. Therefore, their effectiveness comes only from the Mucilage compounds of all the seeds. In this formulation, there is no concern about the cyanide compounds from *Cydonia oblonga* seeds powder, because the whole *Cydonia oblonga* seeds mucilage extract is instead of its powder.

Active ingredient: Each sachet contains:

| | |
|--|-------|
| Lallelantia royleana seeds | 0.5 g |
| Plantago major seeds | 0.5 g |
| Alyssum spp seeds (campestre/homalocarpum.) | 0.5 g |
| Cydonia oblongata seeds ext. (Standardized on swelling index min 30 ml/g.) | 0.5 g |

Indications:

- Relieves cough and sore throat.
- Relieves inflammation of mouth, throat and larynx.
- Soothes vocal cords and hoarseness.

Administration & Dosage:

- Pour and stir the contents of one sachet in a cup of boiling water and sip it after about 10 minutes.
- Three times daily, if needed.
- Drink a lot of fluids after taking this product.

Advantage:

- No sugar (For people with diabetes or limited sugar intake.)
- No artificial color & flavor.
- In this formulation, there is no concern about the cyanide compounds from *Cydonia oblonga* seeds powder, because the whole *Cydonia oblonga* seeds mucilage extract is instead of its powder.

Taradin[®] Granule

Relieves Cough, Sore throat & Hoarseness

Dineh Iran

Is the first producer of herbal medicines in Iran. It was established in 1980 by a group of young and passionate professional individuals with the leadership of Karim Ebrahimi Qajar. Soon Dineh Iran has found its path to the Iranian's hearts, homes, and life style. With the recent discourses about the side effects of various chemical medicines, the importance of applying herbal medicines has drawn more attention towards itself.

Dineh Iran has worked for 40 years to standardize the quality of the herbal extracts by growing and maintaining all the herbs without any chemical pesticides. Dineh makes sure that all the processes have the least side effects.

Your health is our priority.
